    --- We will use the serial key validation to test if this is a registered  
    ---  
    --- If it is, we show no messages (the user is registered, and the app  
    --- If it is in time limited demo mode, show a msg screen.  
    --- If the demo has expired, then do not allow the functionality  
  
    --- It is good practice to put as many registration checks in your code  
    --- this makes it more difficult to hack your application using simple m
